Chairmans Foreword

Following the lifting of bluetongue movement restrictions in England and Wales, it is a real pleasure to welcome everyone to the 24th Shearwell Thame Summer Sheep Fair for what we hope will be a wonderful two days. This sale is now nationally recognised as one of the premier early breeding sheep sales, setting the benchmark for the season. **As we go to print**, our catalogue shows entries of 16,371, slightly down on last year, reflecting a national trend.

Together with my fellow directors, I look forward to welcoming you throughout both days of the Fair. This year's event comes at an exciting time for Thame Farmers Auction Mart, following South Oxfordshire District Council's planning committee's **resolution to grant planning** permission for the market to relocate from its historic town centre home to a new purpose-built site on the outskirts of Thame.

As always, the Fair is a great opportunity to bring the farming community together. **I would also like to thank Shearwell Data for once again supporting the Fair and helping make this important event possible.** I hope everyone enjoys a successful and productive couple of days, whether you're buying, selling or taking the chance to catch up with friends and familiar faces.

All animals must pass through the sale ring and be offered for public auction. Private Sales will not be permitted.

Every vendor MUST ensure their sheep are penned in the correct pens BEFORE they are sold. The number of sheep in each lot shall be counted once leaving the pen to the ring and confirmed returning back from ring.

EWES & THEAVES

ALL EWES AND THEAVES sold in this fair shall (unless otherwise stated at the time of sale) be warranted by the vendor to be right and straight. ****EVERY WEEK IS ANGUS WEEK!!****

The following Mortality Warranty will apply only where the Buyer makes payment of the additional mortality warranty premium at the time of purchase.

1 Mortality Warranty

Subject to the conditions set out below the Society agrees to repay the hammer price of any animal sold at its auctions which dies within seven days of the date of the fall of the hammer as a direct result of a condition which existed at the time of the fall of the hammer ("the mortality warranty"). The Society will not make any payment over and above the hammer price nor reimburse any consequential losses or incidental expenses incurred.

2 Conditions

The conditions which must be satisfied before payment by the Society pursuant to the Mortality Warranty set out in sub condition 1 above are as follows:-

2.1 The Buyer must notify the Society in writing of the death of an animal which may give rise to a claim pursuant to the Mortality Warranty ("a Claim Notice") so that such Claim Notice is received in the office of the Society within 24 hours of such death and then at the Buyer's own cost produce a certificate from a qualified veterinary surgeon:-

A) Confirming the cause of death, and

B) Confirming the veterinary surgeon's opinion that such cause existed at the time of the fall of the hammer, and

C) confirming whether, in the veterinary surgeon's opinion, there is anything which might give rise to the belief that at the time of the sale the vendor of such animal knew or ought to have known of, or had good reason to suspect the existence of the condition which caused the death, or of any symptoms connected with such condition. Such certificate to be produced to the Society within 48 hours of death.

2.2 If the Society so wishes, it may at its own cost obtain a certificate from the veterinary surgeon of its own choice within three days of notification of death by a Buyer.

2.3 The Buyer shall not dispose of any animal in respect of which they intend to claim pursuant to the Mortality Warranty until three days have expired since the Buyer has given a Claim Notice and give the opportunity for the Society or its nominated veterinary surgeon to inspect such animal as soon as it wishes during that time.

2.4 No payment will be made pursuant to the Mortality Warranty where the Society's veterinary surgeon certifies that the Buyer or the employees agents subcontractors or independent contractors engaged by the Buyer or their agents have caused or contributed to the death of the animal by the Buyer's own actions or omissions or those of the Buyer's employees agents subcontractors or independent contractors and the certificate of such veterinary surgeon shall be final and binding upon the Buyer and the Society.

3 Vendor's Responsibility

If in the opinion of the veterinary surgeon whose opinion shall be binding on the vendor the vendor of any stock the subject of a claim pursuant to the Mortality Warranty knew, ought to have known, or had good reason to suspect the existence of the condition which caused such death at the time of sale then the Society will not pay the vendor for such stock or if payment has already been made to the vendor shall repay the hammer price of such stock to the Society within three days of demand.

4. General

4.1 All the times set out in Clause 2 above shall be of the essence.

4.2 Breach of any of the provisions of Clause 2 above by the Buyer will result in the Mortality Warranty being invalidated and no payment will then be made pursuant to it by the Society
